This remedy sold by W. Pinniger. The aucients believed that rheumatism was the work of a demon within man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the infliction is demoniac enough to warrant the belief. It has never been claimed that matism and hundreds bear testimony to the truth of this statement. One quick relief which it affords is alone worth many times its cost. For sale by W. Pinniger

Mrs. Winslow's Southing Syrup has been used by millions of mothers for their childven when teething. No Right to Ugliness

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stemach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety akin, rich complexion. It will make a good looking, charming woman of a run-down invalid. Only 50 conts at S. J. Hodgkinson's drug store.

Warm Art Work.

No, gentle reader, you are mistaken. That dark blot on the local page of an afternoon paper, perpetrated in this immediate vicinity, is not-no, it is overworked cuspidor; neither is it the result of the foreman turning a patent medicine out down side up. It is a work of art.

WILD AND WOOLY YARN FROM CHURCHILL

the "Mysterious Lost

Mine."

Antone Mastretta was out in Churchill county the other day and in the course of his peregrinations he wandered into a camp where two multi-millionaire prospectors surveyed all they were monarchs of. Having surveyed at this point is a foregone conclusion on the part of us villagers but the their land they drove stakes at the corners and called it a mine.

In the center of the claim is an old shaft and in the bottom of it are an antiquated rust eaten pick and shovel. esst and one block west but we can't The shaft is sunk upon a good sized out our trains for you on Virginia ledge very highly mineralized; the ore street, resembling tin:

Years and years age before Nevada point of view. was separated from Utah, a prospector discovered a ledge and sunk a shaft on that won't interfere with the comit somewhere in Churchill. He sant the ore to an assayer in San Francisco head foot bridge. About one-third of who tested it for gold, silver and lead but got no results.

The ore was kicked about the laboratory for a score of years, when some one became interested in it and sent it to Swansea, Wales. Returns from there showed it to be 40 per cent tim

Meanwhile the prospector had drifted out of the State, no one knew where. What is even more to the point no one knew where his ledge lay and it became known as the Lost mine. Have these prospectors tambled onto this tin proposition? In the language of Piute Pete: "Mebbe so, mebbeine. Ugh! No can sabbe."

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo. lately had a wonderful deliverance from a frightful death. In telling of it he saws: "I was taken with Tsphoid Fever, that ran into Pneumonia. My lungs became herdened. I was so weak I couldn't even sit up in bel. Nothing helped me. I expected to soon die of Cosumption, when I heard of Dr. King's New Discovery. One bottle gave relief. I continued to use it, and now am well and strong, I cau't say too much in its Two Weeks at the RIVERSIDE raise." Letting It Out.

A lady who had a servant somewhat given to curiosity inquired on returning from a visit one afternoon; "Did the postman leave any letters. Mary?" "Nothing but a postcard ma'am."

"Who is it from, Mary?" "And do you think I'd read it, ma'am?" said the girl with an injured

"Perhaps not; but any one who sends me messages on postcards is stupid or impertinent."

"You'll excuse me, ma'am," returned the girl toftlly, "but I must say that's a nice way to be talking about your own mother." -- Sydney Town and Country Journal.

Happiness is Work. Recently Mr. Joseph Choate on being asked by Theodore Dreiser, as he tells us in Ainslee's Mugazine, if long years of distinction and comfort brought content and happiness he answered: "Not exactly. There is happiness in con stant labor, or at least the substitute for happiness, for any one who has acquired the habit of laboring constantly will not be at peace unless he is

tion, tell a man you have heard something about him. He will think it is something mean, of course, for a man uever hears anything else. Then tell him something pleasant. He will glow like a schoolboy, and both of you will feel better all day. Don't tell people the mean things you hear about them. That is inexcusable.—Atchison Globe.

A business man from Baitimore found himself in a peculiar predicament one day, says the New York Press. He visits New York about once a month. He sleeps with his glass eye in a tumbler, and there a friend found it one morning. The sight suggested a practical joke-put the eye in Mr. X.'s overcoat pocket. Done! When the friend departed, being short of money. for the moment, he pawned his own overcoat for \$10. In the afternoon there came an urgent telegram to Mr. X., who had been unable to leave bis room on account of the missing eye and whose frame of mind was all distorted and warped. The friend frank-

ly confessed: "Bill, I meant it only as a simple joke. You will find your eye in your evercoat pocket." But it was not there. "It must be, because I put it there myself," urged the joker. The coat was

held up by the tail and shaken. "By thunder! I wonder if I could have put it in my own coat?" "Where's your coat?"

"I've pawned it. I didn't want to borrow and needed a few dollars." "How much is it in for?"

"Ten dollars." Mr. X. produced \$10 and the coat was redeemed. The eye was in the Inside pocket. He carefully washed it, slipped it into place and walked out after 12 hours of solitary confinement.

Lightning Rods.

There was a time when every house had a lightning rod. It was believed that every good man thus protected his wife and children and his home. It is now known there is nothing in the lightning rod theory; a lightning

rod is no protection against lightning,

and there was never any danger from lightning, anyhow. But a lot of other fool theories are still accepted. If we have at last acquired a little sense in the lightning rod particular, why not in other respects? Why continue to accept other silly notions? Why advertise ourselves as fools by accepting the prejudices of fools?--Atchison Globe.
